https://

The web site is not reachable...

A double click on the title will allow to go to the login page And will add to your localStorage an key with a code to access to your login

The manager can change the key if it got a problem (someone find it and we know that he try to connect)

If you connect directly to an another page without connecting you will be transfered to this page

https://

No name is written and this page got roughly no

Your id :   Enter your id

Your password :   Enter your password

Without the key (that you are supposed to get in the index.html) you will be transfered to index.html

Enter

If you do more that 5 try you go the jail and will

When you connect you get an random key (XXXX-XXXX-XXXX-XXXX) and send it to the database

Each time that I go to a new page it will check that I got a conform key

Police is coming

5:00

For the presentation (to not wait 5 min) a double click on the timer will set it to 5 secondes

Timer of 5 min to prevent from Brute Force Attack

With a password of 8 characters 0-9a-zA-Z with the timer you have to wait $((10+26+26)^8) * 5$ minutes $= 2.1059038 \times 10^9$ years

Stealing is bad

At the end of the timer the return button will be appear randomly on the page (to prevent to create a bot that will click on the same place)

Cafe side

Work side

Clicking on the return button will show this alert message
